

REACH/SVHV – RoHS – CAP65 - TSCA – POPs – PFAS – MCCP

Legal requirements REACH / SVHC / ANNEX XIV / ANNEX XVII

Regulation (EC) No. 1907/2006 of the European Parliament and of the Council of 18 December 2006 (REACH Regulation), Commission Regulation (EU) No. 453/2010 of 20 May 2010 amending Regulation (EC) No. 1907/2006, and Commission Regulation (EU) 2015/830 of 28 May 2015 amending Regulation (EC) No. 1907/2006 regulate the registration, evaluation, authorisation and restriction of chemical substances in order to better protect humans and the environment from risks.

Declaration of conformity

SAPHIRWERK AG hereby confirms that all products and preparations offered by SAPHIRWERK within the meaning of the REACH Regulation

- contain only substances that are either not subject to registration or are already registered with the European Chemicals Agency (ECHA);
- do not contain any substances that are subject to restrictions under Annex XVII of the REACH Regulation;
- do not contain any substances that are subject to authorisation under Annex XIV of the REACH Regulation;
- do not contain any substances listed on the European Chemicals Agency (ECHA) candidate list of substances of very high concern (SVHC).

SAPHIRWERK AG does not guarantee the accuracy of the supplier information.

REACH List

Legal requirements RoHS

Directive 2011/65/EU of the European Parliament and of the Council of 8 June 2011 on the restriction of the use of certain hazardous substances in electrical and electronic equipment.

Declaration of conformity

SAPHIRWERK AG confirms compliance with the maximum concentration of 0.1% or 0.01% of the substances specified in the RoHS Directive in MDP pumps.

SAPHIRWERK AG does not use any of the specified substances in any other products.

SAPHIRWERK AG does not guarantee the accuracy of the supplier information.

Legal requirements California Proposition 65

Proposition 65 (officially the Safe Drinking Water and Toxic Enforcement Act of 1986) is a regulation that requires companies to warn consumers if their products or processes release chemicals that are potentially carcinogenic or affect fertility. The aim is to promote transparency, prevention and protection of the environment and health.

Declaration of conformity

SAPHIRWERK AG hereby confirms that all products and preparations offered by SAPHIRWERK comply with all applicable TSCA restrictions and regulations.

SAPHIRWERK AG does not guarantee the accuracy of the supplier information.

CAP List

oehha.ca.gov/proposition-65/proposition-65-list

Legal requirements TSCA

The TSCA restriction (RE: CFR 12.118-12.127) was created to assess the health and environmental risks that may arise from new or existing chemical substances. The aim is to minimise the risk of environmental pollution and harmful exposure to the public as far as possible.

Declaration of conformity

SAPHIRWERK AG hereby confirms that all products and preparations offered by SAPHIRWERK comply with all applicable TSCA restrictions and regulations.

SAPHIRWERK AG does not guarantee the accuracy of the supplier information.

TSCA List

[Toxic Substances Control Act \(TSCA\) Compliance Monitoring | US EPA](#)

Legal requirements Persistent Organic Pollutants (POPs)

Regulation (EC) No 850/2004 on persistent organic pollutants (POP Regulation) implements the international obligations of the Stockholm Convention. It regulates the manufacture, use, marketing, release and disposal of POPs in the EU. The aim is to eliminate or significantly reduce emissions and releases of these substances.

Declaration of conformity

SAPHIRWERK AG hereby confirms that all products and preparations offered by SAPHIRWERK comply with all applicable POPs restrictions and regulations.

SAPHIRWERK AG does not guarantee the accuracy of the supplier information.

POP List

[Organic Pollutans \(POPs\)](#)

Legal requirements PFAS

PFAS regulations have been introduced to address the environmental and health risks posed by these persistent chemicals, create transparency, regulate supply chains and promote safer alternatives. They aim to limit the impact on water, soil, the food chain and consumers.

Declaration of conformity

SAPHIRWERK AG hereby confirms that all products and preparations offered by SAPHIRWERK comply with all applicable PFAS restrictions and regulations.

SAPHIRWERK AG does not guarantee the accuracy of the supplier information.

Legal requirement Medium-chain chlorinated paraffins (MCCPs)

Medium-chain chlorinated paraffins (MCCPs) are a group of organic chlorine compounds consisting of long hydrocarbons to which chlorine atoms are bound. They belong to the group of chlorinated paraffins and are produced by binding chlorine to medium-chain saturated paraffins with chain lengths ranging from C11 to C14 (sometimes C12–C13).

Declaration of conformity

SAPHIRWERK AG hereby confirms that all products and preparations offered by SAPHIRWERK comply with all applicable MCCPs restrictions and regulations.

SAPHIRWERK AG does not guarantee the accuracy of the supplier information.
